 Max Weaver & Ted Dawson
 On Sale 5/4/2021 • ISBN 9781932775990

Max Weaver's *Grubbs* is a chaotic cross between *Calvin & Hobbes* and *Dennis The Menace*, an old school throwback with a modern spin illustrated by veteran newspaper cartoonist Ted Dawson (Spoooner).

Meet eight-year old Billy Watson, a pint-sized chaos agent who received the unwanted nickname "Grubbs" from his big brother Zane. Grubbs' favorite pastime is tormenting Zane, his older sister Courtney, the neighborhood twin girls, and anyone else that crosses his path. Grubbs' best pal, confidante, and advisor is his imaginary friend Tyler. Join in for some good clean fun as Grubbs' concocts his schemes to get even, get ahead, and just get by. Based on a true story!

PRAISE FOR GOD MODE...

"Wonderful, strangely fascinating and utterly compelling. The characterization is phenomenal. The diversity of personalities here are sensational, you feel as if this really does represent your own circle of friends in high school. This is one heck of an example of how comic books can alter your mood, lift you up and put a smile on your face. The joy exudes from the pages and it is an experience you'll love having and want to share."

Author SPOTLIGHT ON

NATSUYA UESUGI

AUTHOR | ARTIST

"grydscaen: dark, you can tell Natsuya Uesugi knows his tech. I write extensively on cyber warfare, but could never write fiction about hackers as terrifying as grydscaen. I've tried writing fiction before but never could pull it off. grydscaen reveals what hackers think. Definitely impressed."

Natsuya Uesugi is also the author of "The Seer of Grace and Fire" which is the first book of the Dark Fantasy Trilogy, the Yaoi BL series and the manga "graphic noiz" along with several more "grydscaen" books.

His book, "grydscaen: dark" was written in 2018. It features hackers crashing the stock market and destroying the economy. On the same year, he wrote "grydscaen: scout" which is about a pandemic that starts in dark but the government ignores then goes out of control. It is a book that sings with the current times. Dark and scout along with other books in the series show how the power of technology can be used for good as well as evil.

Diana Gillmor did not plan to write a book thirteen years ago. However, after a decade of internet research the amazing life of her grandparents was revealed and she made it her mission to record their story for posterity.

After several years of organizing and writing, often 8 hours a day, and several complete "wipe-outs" by her computer, 1946 was finally finished. It is the product of the author's curiosity, a compilation of family memories and stories, numerous passenger lists, birth and census records, as well as, newspaper articles and books. Gillmor has also included numerous family photographs to put real faces on the events and characters in 1946.

1946 chronicles the life of a poor Midwest boy who graduates from the U.S. Naval Academy and, while serving in the Navy in 1912, meets a prolific inventor. At twenty-four, he joins the man's three-person company and in a relatively short time helps propel it into a worldwide powerhouse of 200,000 employees that invents and manufactures practically all the instrumentation used in aircraft, ships and submarines, even today.

1946 is also the story of a wealthy family's life in England and New York during two world wars, their famous friends, fabulous homes, servants and first-class travel. But it also depicts the devastating tragedies that seem to stalk them and their betrayal by a treasured friend that leads to their ultimate destruction.

While this is her first book, Gillmor proves to be a competent writer. The story of her influential family amidst important political events between 1910 and 1946, makes 1946 an engaging blend of family and world history, that will keep readers entertained for hours.
