1LifeObit
my wishes, my words, my life
Funeral Wishes

None of us know when we will pass, but we should have an opportunity to have control over it. Many times people are taken unexpectedly, and although they may prepare a will, they do not leave advice for loved ones left behind, for the important moments in their life. This is how Sarah-Luisa Gosling-Berté sees it following her own life-threatening experiences. *1LifeObit* is your own self-written obituary of memories, concise funeral plans, and lasting legacy. You may or may not want a funeral, or you may or may not want to be cremated or buried. How will your loved ones know if it is not detailed anywhere? This is the concept of the book. It covers all aspects, including living funerals—your life, giving you control and reassurance.
